

Primary and Secondary Education

Ark Community Charter School - Troy, New York

The Ark, which operates a number of educational programs, acquired the rights to a former elementary school for use as the Ark Community Charter School. They retained us to renovate finishes, complete building for code compliance and address accessibility issues.

Darrow School - New Lebanon, NY

Concept design for renovations and possible addition to facility used for kitchen and dining, gym, student center, and theater.

Bishop Gibbons Science Center - Schenectady, New York

Program review and planning of design options for science suite. Plans, drawings and a model were used to generate alumni interest and secure funding.

Susan Odell Taylor School - Troy, New York

Design of a classroom addition, gymnasium/performance space, library and interior and exterior improvements. Codes, construction costs and construction methods were analyzed for a capital campaign.

Hoosak School - Hoosick, New York

Site evaluation and schematic design for student housing.

Tech Valley High School - East Greenbush, New York

architecture+ provided a wide array of architectural services associated with programming, design, site selection, lease negotiation, developer negotiation, and construction administration for the relocation and expansion of the school. The school is designed to prepare students to participate in the Region's growing high-tech economy by engaging them with a unique focus on math, science, technology, and 21st century skills in a business/incubator/research setting on the University at Albany East Campus.

Holy Cross Elementary School - Albany, New York

Additions and renovations to existing church/school complex to provide a gymnasium, cafeteria, library and three new classrooms.

Redemption Church of Christ - South Troy, New York

Master plan for relocation of an independent K-12 private Christian academy to a new site.

Vanderheyden School - Wynantskill, New York

Developed budget and expansion options for a new school. Data generated allowed the school to develop a capital plan for development and successfully secure funding.
