

Albany International Airport Food Court

Albany, New York

We designed the food court around a sidewalk cafe motif to create a pedestrian streetscape. This style highlights the rich history of Albany and the greater Capital Region. We incorporated historic references using ornamental metalwork facades that recall period ironwork.

The Court is set with specially created fritted glass panels that depict images of Capital Region landmarks. Tenants include a coffee bar, brewhouse, fast-food restaurant and ice cream store.

Award

First Place Food and Beverage, Class A and B Airports, Airports Council International, 1999
